

WHAT'S THIS?
Valley View Ferry

This is a small boat that carries people and things across a body of water. It is a simple way to get from one side of a river or lake to the other. The boat is made of wood and is pulled across the water by a rope. The boat is used to carry people and things across the river. The boat is used to carry people and things across the river.

GOING HOME

When the boat is full of people and things, it is pulled across the river. The boat is used to carry people and things across the river. The boat is used to carry people and things across the river.

Horno

(Adobe oven)

The Beehive Shaped oven, built with adobe bricks, is common in Hispanic and Pueblo communities in the American Southwest.

Building a horno is considered an art.

Butterflies are very important insects. They help plants grow by eating their leaves. They also help plants spread their seeds. Butterflies are also beautiful to look at. They come in many different colors and patterns. Some butterflies are very large, while others are very small. Butterflies are found all over the world. They are most common in warm climates. Butterflies are also found in some cold climates. Butterflies are a very important part of our environment. We should take care of them and their homes.
